

Meraki

**100% Cloud Managed Enterprise Networks
Trusted by Tens of Thousands of Customers**

Cisco Meraki cloud managed edge, branch, and campus networking solutions bring simplicity to enterprise-class networks. With wireless, switching, security, and device management centrally managed from the cloud, Meraki gives network administrators visibility and control, without the cost and complexity of traditional architectures.

Cloud Management Architecture

Cloud Based Centralized Management

- Network-wide visibility and control
- No on-site controller hardware
- Automatic monitoring and alerts
- Seamless over-the-web upgrades
- Scales to networks of all sizes

Intuitive Browser-Based Dashboard

- Intuitive interface eliminates specialized training
- Network-wide visibility across campus and distributed networks
- Wired, wireless, security, and MDM under a single pane of glass

Intuitive Browser-Based Dashboard

- Industry-leading cloud architecture
- Custom designed database and real-time protocols
- Scales to tens of thousands of devices
- 99.99% uptime SLA
- Regular 3rd party security audits and penetration tests (PCI level 1 certified)

ATS sets the standard for telecom system integration, infrastructure, networks and communication with the best and most suitable solutions, leveraging technologies, implementation and long term support

Featured Solutions

High Density WiFi

- 802.11ac and 802.11n, up to 1.75 Gbps
- Optimized for 100+ clients per access point
- Layer 7 traffic shaping at the edge
- Cloud based RF optimization with spectrum analysis

Branch Networking

- Built-in multi-site management
- Auto-configuring site to site VPN
- Centralized monitoring, alerts, and firmware updates

Campus Edge

- Centrally manage thousands of wireless APs and switches
- Enforce network policies at the edge
- Seamlessly scale with distributed packet processing
- Deploy, manage, and troubleshoot quickly with cloud based tools

BYOD with Device Management

- Fully integrated BYOD security and management
- Automatic client classification and policy enforcement
- Built-in NAC with antivirus scan
- Manage mobile devices with Systems Manager

Intuitive, Scalable Management

- Scalable cloud managed wireless APs, security appliances, and switches
- Deep network-wide visibility
- Controls applications, users, and devices

Key Technologies

Centralized Management

Application Control

Auto VPN

Device Management

Next Gen Firewall

Content Filtering
